# MIA Certificate of Sustainability for Accountants

The ISSB Standards are being firmly established as the global baseline, covering around 40 per cent of global capital markets. We are committed to maximising the benefits ISSB Standards offer.

EMMANUEL FABER

Chair, the International Sustainability Standards Board (ISSB)

*As said in the International Sustainability Standards Board Conference 2025, 30 October 2025.*

Across the globe, organisations are being reshaped by the accelerating demands of sustainability, climate risk disclosures, and rising expectations for transparency and accountability. For the accountancy profession, this shift is profound: sustainability has become inseparable from financial reporting, governance, risk management, and long-term value creation.

In this new environment, every accountant is a sustainability accountant. The role of finance professionals now extends far beyond traditional reporting—it includes assessing sustainability-related risks and opportunities, supporting climate-related disclosures, enabling strategy integration, and upholding ethics and trust in sustainability information.

The Certificate of Sustainability for Accountants is a three-day programme meticulously designed to prepare accountants, finance leaders, and sustainability professionals for this evolving landscape. The curriculum integrates global and Malaysian sustainability developments, including IFRS S1 and IFRS S2, the National Sustainability Reporting Framework (NSRF), and the latest regulatory expectations. Participants will explore sustainability reporting, climate disclosures, materiality, stakeholder engagement, ethics, sustainability assurance (ISSA 5000), and the use of technology and digital tools in sustainability data and analytics.

Through expert-led discourses, case studies, and practical exercises, participants will gain the competencies to embed sustainability into strategy and operations, enhance governance, and provide decision-useful sustainability information that supports organisational resilience and performance.

Upon successful completion of the programme and the prescribed assessment, participants will be awarded a *Certificate of Completion* by the Malaysian Institute of Accountants. Participants who do not meet the assessment requirement will be issued a *Certificate of Attendance*.

## OBJECTIVES

This programme seeks to help you:

- Understand sustainability trends, developments, and regulatory requirements
- Gain insights on the MIA Sustainability Blueprint for the Accountancy Profession and the roles of accountants in sustainability
- Understand sustainability reporting (including IFRS S1 and S2), sustainability assurance, and ethics in sustainability
- Understand the impact of sustainability on organisations and how to embed sustainability into strategy and operations

## WHO WILL BENEFIT

- Finance Directors and CFOs
- Chief Sustainability Officers (CSOs)
- Finance Managers and Executives
- Corporate Reporting Teams
- Sustainability / ESG Managers and Executives
- Risk Management Professionals
- Internal Auditors and Compliance Officers

## METHODOLOGY

Presentations, expert-led discourses, case studies, practical exercises, and assessment.

Participants are required to bring own laptop for the programme.
